Work Experience

04-07/2023 **Research Scientist Intern**
Disney Research Studios - Zürich, Switzerland
Worked on transfer learning, knowledge distillation, and model compression. Developed a new neural network activation that improves accuracy in different domains, such as implicit neural representation, super-resolution, and visual denoising. Worked also on its efficient implementation in CUDA kernels for PyTorch and TensorFlow 2.

12/2021 - **Applied Scientist Intern**
09/2022 *Amazon Web Services AI Labs* - Seattle, Washington
Worked on the Amazon Web Services AI Labs on the Rekognition team in a research project focused on video predictive understanding using deep learning models. In particular, I investigated and innovated how to anticipate and early-recognize events on videos before they occur.

06-09/2020 **Applied Scientist Intern**
Amazon Alexa AI - Turin, Italy
Worked on improving recognition of speech with disfluencies in the Amazon Alexa Automatic Speech Recognition (ASR) team. During the project, I worked on the multi-lingual modeling of particular speech disorders, mining relevant datasets, designing and training neural network architectures, and delivering high-quality results.

11/2018 - **Deep Learning and Computer Vision Engineer Intern**
10/2019 *Aquifi Inc.* - Palo Alto, California
Implemented deep learning systems for anomaly detection on multi-view structured input images on highly imbalanced datasets using state-of-the-art and implementing custom CNNs. Worked with a variety of tools, including Python, TensorFlow, and C++, as well as HTML, javascript, and CSS for experiment visualizations.

Academic Work Experience

- 2020 - 2021 **Teacher Assistant**
University of Padova - Padova, Italy
Teacher assistant for the machine learning class in the Data Science Master Degree. In particular, I lectured class lessons, prepared the laboratories, and I supervised and evaluated the students for their final project of the course.
- 2019 - 2023 **Thesis Co-Supervisor**
University of Padova - Padova, Italy
During my Ph.D. I co-supervised 9 Master Students (from the Computer Science and Data Science degree) and 1 Bachelor Student (from the Computer Science degree) in their final thesis.
- 2019 - 2023 **Service**
I served as a reviewer in top venues such as: ICCV-2023, CVPR-2023, BMVC-2023, TPAMI-2022, CVPR-2021, ICPR-2020.
